## Trout Unlimited Canada

Trout Unlimited Canada (TUC) is an organization that is dedicated to conserving, protecting and restoring Canada's cold water resources through science-based conservation projects. With the support of TUC members, corporate sponsors, generous donors and local residents TUC has been at the forefront of conservation for over 40 years. TUC's work ensures that future generations have clean, cold water for life.

Trout know the value  
of Clean Cold Water.  
Do You?

restoration

education

Water is the foundation of all life on this planet. Whether you are a kid taking your dog for a riverside stroll, a parent taking your child for a swim, a grandparent teaching a budding angler how to fish or a fish chasing its dinner – we ALL know the value of clean, cold water.

Trout are living indicators of clean, vibrant water systems. A stream may look healthy – the presence of trout proves it!

Trout Unlimited Canada is a 'hands on' not for profit organization. We have been conserving, protecting and restoring Canada's rivers and streams since 1972. Trout Unlimited Canada receives great support from our members and partners across the country but there is always more work to do. As a not for profit organization obtaining sufficient funding is a constant challenge. This is where you can help.

With your support Trout Unlimited Canada can continue conserving, protecting and restoring your water ways. Donate or join Trout Unlimited Canada today!
